Kavita Sharma - Reviews

You know I have been told by many that reading the PMP manual is the most boring task one would ever want to do. I found your book extremely gripping and an easy read. I really liked the "Let's Play" element you have put in to sustain interest and do a memory test. Very effective learning methodology. I can imagine the readers shouting in joy "That was easy!" **Overall – Excellent book...**

However, the class by Kavita Mam helped me in developing my study plan and the complete overview helped me focus on the certification. I passed with just 10 days of dedicated study.
